WHOLESALE LIST
Rooted Cuttings
SPRING — 1952

Cunningham Gardens
INCORPORATED
PROPAGATORS — GROWERS — WHOLESALE
WALDRON, INDIANA.

Chrysanthemums

GARDEN VARIETIES

All Rooted Cuttings are produced from selected field grown plants. Throughout the growing season the stock plants are rigidly inspected against insect or disease occurrence. The benched stock is given the best possible care during the propagating season and is grown under lights.

Shipments are continuous from mid-February until early July.

Prices are for 25 or multiples of 25 of one variety.

Symbols: L-large; C-cushion; D-double; P-pompon; S-small

TERMS OF BUSINESS

Shipments are made collect, either by Railway Express or by Air Express. All stock is carefully packaged and any loss or damage in transit should be immediately reported to the carrier's agent. Smaller lots sent by Parcel Post travel at the customer's risk and expense. With such orders sufficient money should be included in remittance to fully cover the postage. Any balance not used will be promptly returned.

Cash should accompany all orders. However, persons or firms known to be in good standing in the trade are entitled to the usual credit terms.

Advanced operating costs compel rapid execution of orders and we request that not less than 25 of a variety and not less than 100 in all constitute an order.

It is realized how vitally important good, clean, stock is to the customer and as producers govern ourselves accordingly. Should any disease not apparent when stock is shipped develop in the hands of the buyer, it is understood that no recourse against us be had in such event. We guarantee all stock to be as represented to the extent of its value when delivered. A copy of State Entomologist Certificate of Inspection attached to all shipments.
